Description

The EJG 212-216 series of counterbalanced walkie stackers is used for loading and unloading cantilever-type storage racking, sideways lifting of pallets or special load sizes where support arm walkie stackers cannot operate. These 2,600-3,500 lb. capacity forklifts with an overall width of 35.4 inches and a high degree of maneuverability can be operated easily in confined warehouse spaces.

Shipping & pickup

Buyer is responsible for shipping arrangements and all costs related to transporting the equipment including permits, tear-down, cranes, or other incidentals that may be required to legally transport your purchase.

Following the settlement of the outstanding balance, arrangements must be made immediately to have equipment picked up within ten (10) business days as Toromont may, at its discretion, assess storage fees.
