Description

The 7,000-11,000 lb. capacity electric pneumatic tire lift trucks are equipped with the newest generation of Jungheinrich's 3-phase AC technology, which offers numerous advantages, such as high performance due to

higher motor torque and energy efficiency. Major electrical components are sealed, including connectors, controllers, motors and more, preparing this series for even the toughest environments.

Shipping & pickup

Buyer is responsible for shipping arrangements and all costs related to transporting the equipment including permits, tear-down, cranes, or other incidentals that may be required to legally transport your purchase.

Following the settlement of the outstanding balance, arrangements must be made immediately to have equipment picked up within ten (10) business days as Toromont may, at its discretion, assess storage fees.
