## Description

---

The 48-volt EKV 410-412 high-rack turret truck and order picker, with 2,200-2,600 lb. capacities, is designed for narrow aisle applications and can be used for full pallet put-away and retrieval as well as for picking

individual boxes or pieces. With lift heights up to 30 feet, this turret truck sets new standards in terms of flexibility, efficiency and ergonomics. The new EKX 410-412 series is designed to operate longer, reach higher lift heights and maximize efficiency.

## Shipping & pickup

---

Buyer is responsible for shipping arrangements and all costs related to transporting the equipment including permits, tear-down, cranes, or other incidentals that may be required to legally transport your purchase.

Following the settlement of the outstanding balance, arrangements must be made immediately to have equipment picked up within ten (10) business days as Toromont may, at its discretion, assess storage fees.
