Description

The 4,500 lb. and 6,500 lb. capacity walkie series is ideal for indoor material handling applications where travel distances are short (less than 200 feet), work spaces are congested and floor loading and unloading is

common. These electric and manual walkie pallet trucks offer some of the shortest head lengths in the industry, making it simple to pinwheel in the tightest of areas, like inside a trailer.

Shipping & pickup

Buyer is responsible for shipping arrangements and all costs related to transporting the equipment including permits, tear-down, cranes, or other incidentals that may be required to legally transport your purchase.

Following the settlement of the outstanding balance, arrangements must be made immediately to have equipment picked up within ten (10) business days as Toromont may, at its discretion, assess storage fees.
