## Images

## Description

The ETV C16/C20 series of reach trucks is suitable for operation on a smooth concrete floor in the warehouse or for loading/unloading on a bumpy asphalt surface. The side-facing seat provides excellent visibility when transporting high loads, and the design and layout of the controls contribute to excellent visibility. Whether

handling pallets, operating in single or multi-shift applications or frequently working outside, these 3,500-4,400 lb. capacity reach trucks provide the ideal solution.

## Shipping & pickup

---

Buyer is responsible for shipping arrangements and all costs related to transporting the equipment including permits, tear-down, cranes, or other incidentals that may be required to legally transport your purchase.

Following the settlement of the outstanding balance, arrangements must be made immediately to have equipment picked up within ten (10) business days as Toromont may, at its discretion, assess storage fees.
