Description

Offering a variety of uses for practically any application, the 2,200 lb. capacity walkie stackers combines performance efficiency and operator safety with an attractive design. Excellent ergonomics contribute to the effortless handling of the EMC B10 walkie stackers. The long handle provides the lift truck operator with low steering forces, and all travel and lift functions are easily accessible on the multi-function handle head. In addition, the short head length ensures effortless operation, even in confined spaces.

Shipping & pickup

Buyer is responsible for shipping arrangements and all costs related to transporting the equipment including permits, tear-down, cranes, or other incidentals that may be required to legally transport your purchase.

Following the settlement of the outstanding balance, arrangements must be made immediately to have equipment picked up within ten (10) business days as Toromont may, at its discretion, assess storage fees.
